

Permanent Mission of India to the United Nations  
New York

**Press Release**

**Condemnation of recent attacks on UN Peacekeepers in UNIFIL**

UN Peacekeeping is multilateralism in action, implemented by UN Peacekeepers who are deployed with the backing of an international mandate in conflict areas and under difficult conditions.

2. We condemn the recent attacks on UN Peacekeepers deployed in UNIFIL, and pay our homage to the fallen Blue Helmets.
3. We urge all parties to ensure the safety and security of the Peacekeepers.
4. As one of the largest and longest serving contributors to UN Peacekeeping, and having lost the largest numbers to this cause, India piloted the UN Security Council resolution 2589, which seeks Accountability for Crimes against Peacekeepers, which we will continue to pursue.
